

POWDER-X COATING SYSTEMS

LEASING AS AN OPTION

Leasing

For many companies the most advantageous way to finance our equipment is leasing. Today even the largest U.S. Corporations lease key portions of their equipment. And for many companies, large and small, leasing has clearly become the most advantageous way to finance selective capital goods equipment like ours.

We offer a broad program of Leasing Plans. The plans specifically match the working life of our equipment to your industry.

In each instance a Lease Plan will be further refined to fit your companies' goals and your specific objectives in leasing.

For further information on the advantages of leasing for your company – or for a direct lease quotation – contact our representative today.

Leasing's Advantages

- Keeps working capital working – not tied up in fixed assets
- Lets the equipment pay for itself with the revenue it generates
- Keeps bank lines of credit open
- Lets you pinpoint equipment costs to specific projects or profit centers
- May offer tax advantages as an operating expense
- Permits the immediate ordering of needed equipment at today's prices
- Allows you all of the benefits of ownership without the major cash outlays
- Eliminates depreciation accounting problems and simplifies bookkeeping
- Lets you capitalize on unbudgeted opportunities
- Offers numerous payment plans and lease-end options for maximum flexibility
- Provides 100% equipment financing without compensating balances or down payments.
